

Introduced by Senator Gaines

February 1, 2016

An act to amend Section 115843.6 of the Health and Safety Code, relating to reservoirs.

LEGISLATIVE COUNSEL'S DIGEST

SB 930, as introduced, Gaines. Bear Lake Reservoir: recreational use.

Existing law prohibits recreational use involving bodily contact with the water in Bear Lake Reservoir unless certain conditions are satisfied, including that the water subsequently receive complete water treatment. Existing law requires the Lake Alpine Water Company, on or before January 1, 2016, to file with the Legislature a report on the recreational uses at Bear Lake Reservoir and the water treatment program for that reservoir. Existing law provides that, upon a finding of noncompliance, the Lake Alpine Water Company could be subject to suspension, amendment, or revocation of any permit issued pursuant to specified provisions, and that failure to comply with these provisions would be deemed a violation subject to specified fines, penalties, or other enforcement actions. Existing law deletes these provisions on January 1, 2017.

This bill would require the Lake Alpine Water Company to file the report on or before January 1, 2018, and would delete these provisions on January 1, 2019. By expanding the scope of a crime, the bill would create a state-mandated local program.

This bill would make legislative findings and declarations as to the necessity of a special statute for the Bear Lake Reservoir.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.

The people of the State of California do enact as follows:

SEC. 2. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances in the Bear Lake Reservoir. The facts constituting the special circumstances are:

Recreational activities occur at Bear Lake Reservoir pursuant to Section 115843.6 of the Health and Safety Code, provided certain conditions are met. The Lake Alpine Water Company will continue effective water treatment through microfiltration and disinfection in order for bodily contact to continue, and the company will provide information to the Legislature regarding certain issues to ensure that any recreational uses at the reservoir do not affect the provision of domestic water to district customers..

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or

1 infraction, eliminates a crime or infraction, or changes the penalty
2 for a crime or infraction, within the meaning of Section 17556 of
3 the Government Code, or changes the definition of a crime within
4 the meaning of Section 6 of Article XIII B of the California
5 Constitution.
